H. S. FRESHMEN GUESTS AT PARTY

Three Upper Classes of
Granville School Enter-
tain With Hallowe'en
Party Friday Evening.

(Special to the Advocate.)
Granville, Nov. 1.—Two floors of the
Chester Montgomery warehouse were
devoted to a gay and festive Hallowe'en
celebration Friday evening by the
young people of the Granville high
school, who achieved one of the social
successes of the year. The three upper
classes combined in the affair, hon-
oring the freshmen, and a committee
composed of four members from each
class headed by their respective teach-
ers, were in charge. The immense
room was transformed by the tradi-
tional decorations of pumpkins, corn
shocks, lanterns, etc., the lower floor
devoted to refreshments, the upper to
the various games and stunts belong-
ing to the occasion. The first prize
for the best costume was awarded Miss
Clara Vandenberg, the prize for the
funniest costume went to David Pratt.
Music was furnished by a Victrola,
and the festivities ceased before 12
o'clock, interrupted only by the call
to refreshments at 10 o'clock, which
consisted of pumpkin pies, punch and
apples.

Louise Thomas, daughter of Mr. and
Mrs. Watkin Thomas, was hostess at
a Hallowe'en masquerade party at her
home in North Pearl street last even-
ing from 6 to 8 o'clock, which was
greatly enjoyed by the ten little girls
of the sixth and seventh grades, to
whom invitations had been sent. These
present were: Eileen Kohrer, Cora
Frances Stark, Brenda McLaughlin, Verma
Carrier, Ethel Thomas, Laura Mabel
Jones, Cheslie Young, Thelma Wiley,
Marion Peirson, Louise and Pauline
Thomas.

Rain in torrents, sloppy pavements,
and dim street lights, had but little ef-
fect on the success of the chicken pie
supper given by the Presbyterian wo-
men in their social rooms last evening.
There was a large attendance, good
food and it is to which the
guests were helped cafeteria style, car-
rying their trays to the tables. Hal-
lowe'en was featured in the decorations
and in the unique headgear of the
ladies in charge of the affair.

Mrs. Leaband, Indiana,
is visiting her sister, Mrs. Doleman at
the home of her niece, Mrs. M. M.
Shoemaker in South Prospect street.
Frank Rue arrived in Granville Fri-
day for a visit at the home of Mrs.
Rue's mother, Mrs. T. P. Wright. After
a fortnight's visit he will return to
Imhousen, N. J., accompanied by
Mrs. Rue and the two children, who
have made a more protracted stay.

At the meeting of the Daughters
of the American Revolution held last
evening in the community rooms, Mrs.
C. B. Slack, regent, presided. The pro-
gram consisted of a paper on "Women
of the Revolution" was read by Mrs.
L. A. Austin, and an interesting talk
was given by Miss Janet Jones, recent-
ly returned from war duty in France,
on her work and experiences abroad
during her stay. The chapter voted a
gift of \$50 to the Community federa-
tion fund for its work.

In the Methodist church Sunday the
usual services will be held. Morning
service at 10 o'clock, evening service
at 7 o'clock with sermons by the pas-
tor Rev. K. G. Bowden. Communion
service has been postponed for one
week.

At the Baptist church Sunday Dr. C.
L. Williams will preach both morning
and evening.

o'clock. Frederick Randolph, rector.

MR. ASHCRAFT AND THE TELEPHONE CO.

(Political Advertisement.)
The Newark Telephone Company
commenced to operate as a corporation
under a franchise contract in 1910 for
the period of 21 years. At that time
the rate for residence phone was
\$1.50 per month and for business
houses \$2.00 per month.

This company continued to operate
successfully under the above rates for
about 12 years when it came under its
present management and in a short
time thereafter there was a demand
upon the City Council for a change
in the franchise and a raise in the rates
to \$1.75 and \$2.25 per month.

Following closely upon the heels of
the raise in rates ASHCRAFT demand
was made for another raise in rates
which the City Council refused to do,
and failing in this attempt it seems
that the management of the Telephone
Company is attempting to play politics
by carrying HIGH PRICES and adver-
tising in the newspapers against the
man that is making the fight for the
Peoples Rights this same management
would have no trouble in making 6 and
7 per cent on the investment.
Yours very truly,

FALL PLOWING DESTOYS MANY LAND INSECTS

By plowing in the fall, serious at-
tacks by cutworms, wire worms, wire
worms, and bill bugs may
be largely prevented, according to en-
tomologists at the Ohio Experiment
Station. On land that is level enough
to prevent serious washing, fall plow-
ing destroys many of these underground
insects. Sod land of two or more years
standing is almost sure to be infested
with one or more of these pests. It is
stated. Fall plowing may also relieve
extreme labor conditions in the spring
and crops may be planted earlier gen-
erally than when the land is plowed in
the spring.

While grubs are disturbed by deep
fall plowing because this insect comes
near or below the plowed line during
October.

Fall cultivation of alfalfa stubble
helps to destroy webworms and insects
peculiar to this legume. Many grass-
hopper eggs are also destroyed by fall
cultivation.

ELEVENTH HOUR TRUTH

Mr. Charles E. Hollender, Gen-
eral Manager of The Newark Tel-
ephone Company, answering my
letter says: "This Company is
not VERY ACTIVE in an
effort to defeat Mr. Ashcraft."

Since by your own statement
you ADMIT that your Company

in an effort to defeat me at the
election Tuesday, Nov. 4th, please
answer the following questions:

First—If you are not VERY
ACTIVE in your efforts to de-
feat me, just how active are you
and why?

Second—If you are not VERY
ACTIVE against me why have
you spent hundreds of dollars in
advertising through the newspapers
attacking me personally?

Third—Why are you unwilling
to leave your case to the COURTS
of the country if you believe your
contract is invalid or unfair?

TEACHER WILL BE ABLE TO RESUME POSITION

Miss Garnet Morrison, daughter of
Mr. and Mrs. Edward Morrison of
Thornville, and an intermediate teacher
in the public schools of that village,
who was injured when her automobile
turned turtle near Pleasant Thursday
evening, was reported as resting com-
fortably today and that she would in
all probability be able to resume her
position next week.

Miss Morrison was driving her auto.
Mrs. Sarah Hirst to her home at 104
Wing street in this city when the ma-
chine sideswiped with another on the
pikes both going over the embankment.
Mrs. Hirst was thrown clear of the
machine but Miss Morrison was pinned
underneath. The men who gathered
around lifted the car so that she could
be pulled from under it and it was
found that her right leg had been
badly cut. She was given first aid and
Dr. C. F. Legge was called and dressed
the wound, taking several stitches to
close the same. She also received a
few body bruises.

FLOODED LOWLANDS MAY DESTROY CORN

If the present rains continue there
is likely to be a great loss to the farm-
ers living in the lowlands and bottoms
over the country on account of creeks
and runs overflowing their banks and
carrying away thousands of shocks of
corn, which has not been husked on
account of the inability of the farmers
to perform that labor on account of
the continued rains. Residents in var-
ious parts of the county report that the
waters are raising, but the weather
man has promised a fair day for Sun-
day and the danger will be minimized
if he happens to make the right pre-
diction.

ECONOMY & EFFICIENCY IN CITY AFFAIRS

Mayor Atherton, in all his advertisements, says that during his two years' administration, efficiency and economy have been his slogan, and will continue to be, and that the various departments show this.

The Republican Executive Committee, through the American Tribune, in its issue of Thursday, October 30, attempts to take Mayor Atherton to task for alleged deficiencies in two departments under his control, the most important of which is the Department of Public Safety.

There will be a deficiency of some \$15,000 in this department this year, it is true, but it was not caused by waste or extravagance as the Tribune would have you believe. It does not say that the 49 men employed in this department have received an increase of \$25 per month per man in the last two years, which totals \$14,700 a year increase, nor does it say that four additional men are employed in the South End Fire Department that gives protection to a section of the city that for forty years had been promised this very protection by the Republicans every two years that the municipal campaign was on, and up until last year had not been realized. One particular councilman has run on the Republican ticket to our certain knowledge the last three times on this very same promise and then when it was possible to put the department down there did everything he could to block it. Can you say that the men above referred to do not deserve this additional salary?

When the Republicans begin to prate about economy, let us refer the voters to the four years that they were in office prior to the incoming of the present administration.

Everyone remembers very distinctly the two red fire trucks that were purchased during their tenure of office. A committee from the city council that was appointed to investigate these same trucks after their purchase and installation found 67 defects in one alone. They were the greatest aggregation of secondhand junk that was ever inflicted on a municipality, and carrying a guarantee of only 24 hours' duration—long enough for the manufacturer to deliver and get his money.

Everyone remembers how they used to get stuck in the mud and snow and the firemen had to be transferred to a Ford to finish the run. And they also remember that an expense bill for repairs of from \$50 to \$75 used to accompany runs made by these two pieces of alleged fire apparatus that were purchased at a cost of some \$10,000 to the city, and that the bonds for the purchase of the same are not yet paid out. Had apparatus been purchased at that

time similar to what we have now it would not have had to be replaced in twenty years. Some economy that!

Yes, and the people remember the fire hose bought by these same Republicans. This hose did well to last four years when it should have lasted fifteen. And yet this same bunch that is trying by every means, fair and foul, mostly the latter, to beguile the public into voting this kind of economy into office again after a lapse of two years, hoping that in the meantime the people might forget.

Everyone remembers the dilapidated condition of all the fire department buildings, the horse drawn apparatus and the junk as well as the city prison and the patrol house when this gang of Republicans went out of office and their condition at the present time—every one is in first class repair. This same bunch of politicians would have you believe that they are economists of the first water, but does their record prove it? Every taxpayer in the city that knows anything at all knows whether there has been economy or not in the present administration of the city's affairs. Why are the people so proud of their fire departments now? The answer is that we are rid of the "economical" junk that was cleverly put over on the people as first class apparatus by a Republican administration. Talk about a Board of Control letting contracts! Compare this deal with any of the present administration! Why does a Republican blush and apologize when you refer him to this, the most colossal bonhead that has been pulled in the city's history.

These same Republican politicians go to a great extent to tell the people why this deficiency exists. But do they give you the real facts as they are? Most emphatically, "No!" They would not dare to. If they did they would not have a leg to stand on. Do they tell you that war conditions affected the Department of Public Safety as it did other things? Do they tell you of the loss of the liquor taxes as a whole? Do they tell you of increased salaries and the cost of everything else in the operation of the department? They do not. Do they tell you that Newark is the last city in the state to face a deficit in its Safety Department as regards current expense. All cities and towns in Ohio are alike affected from the loss of the liquor revenue. No, indeed, they do not tell you. Do they tell you that the people as a whole are better satisfied with what has been accomplished in the past two years under these difficulties than they have ever been before? Most emphatically—"No!"

They also make reference to the alleged inefficiency of the Police Department, but when these same Republicans' attention is called to the fact that no enterprising burglars have carried off any safes

from store buildings next door to police headquarters they stare at you in blank amazement. But such an instance really happened under the last Republican administration. Do the people remember this? Most emphatically, "Yes!"

Before this bunch of Republican politicians begin to talk economy and efficiency they should at least clean off their own doorstep before they begin attacking others.

The Republican Executive Committee and the Tribune also would have you believe that the Department of Public Service is lax in its efficiency as they claim.

Everyone remembers the condition the waterworks plant was in when the present administration began its career of alleged extravagance. In 1914 under Republican misrule, a survey was made at some expense and recommendations made that a duplex system of discharge be made. This was not done as usual, yet the hazard existed—and every one remembers the breakdown of their waterworks some months ago as a result. During the present administration this improvement has been made in its entirety, besides the locating of some thirty or more illegal connections that were made prior to the inauguration of the present administration, chief of which was one by the American Bottle Company, and a suit is now in the courts to settle the amount due the city as a result, and the others have been settled to the satisfaction of the department for the illegal use of water. Is this efficiency and economy? Most emphatically "Yes!" The waterworks plant itself has been improved to such an extent that eight hours pumping a day suffices, whereas under the past order of things pumping was a continuous operation, day and night. Yes, there has been efficiency and economy. What more proof does the average taxpayer want? But these same politicians will fool you all along the way if they can. Are you going to be deceived by insinuations, half truths and camouflage? Most emphatically, "No!"

We would not have you believe that these Republicans that are running for municipal offices now and the ones that held office preceding the present administration are one and the same, but they are so closely allied that the results would be the same, as two candidates now running for office were appointees under the preceding administration, and the candidate for mayor on the present Republican ticket is one of them.

Are the electors of the City of Newark going to vote this gang in again, or are they going to put their stamp of approval on what the present administration has done by re-electing them for another two years? We think they will do the later on next Tuesday, November 4th.

CITY COUNCIL.

P. W. Faust, American express agent, is a candidate for his second term as councilman-at-large. In the council and as a citizen Mr. Faust has worked to make Newark grow and prosper. He has a record of 25 years continuous service in the express business and in his own business as well as in the city's business he has been faithful and successful.
O. George Hand, another candidate for councilman at large, is running for the first time. He is a popular Wehrle foundry man and his friends are legion. He has given assurance that the city's interest will be his chief aim and his friends know that dependance can be placed in every promise he makes.
Walter D. Welker of West Main street, and a resident of Newark for 15 years is a candidate for councilman at large. Mr. Welker is 44 years of age and a well known groceryman. He has never before been a candidate for public office but has served as judge and clerk of elections in recent years. Mr. Welker is thoroughly dependable.
Fred Wolverson, J. Phil Baker, Carl Youtz, W. H. Butler and Charles Spees are the Democratic ward candidates for membership in the city council. These men are all well known to the voters of their respective wards. They are men in whom confidence may be placed and they desire support next Tuesday.

VOTE FOR ATHERTON.

H. A. Atherton is the most progressive, the most energetic mayor Newark has had for years. He has not catered to any element but has kept in mind the city's interests.
His office record is an open book. The opposition's effort to discredit his collection of fines is met with the mayor's invitation to all who may be interested to call at his office to inspect the cash receipts for money which he turned over to the proper authorities.
A vote for "Gus" Atherton next Tuesday is an expression of approval of the progressive business like administration he has given during his first term. Vote for Atherton.

Not one of the men who are trying their level best to defeat "Gus" Atherton has as yet called at the mayor's office to see the cash receipts which he holds showing that the money collected from fines was properly accounted for and turned over to the proper authorities. The mayor has these receipts to substantiate the statement which was recently published. If you doubt it visit the mayor's office before you vote next Tuesday.

MUNICIPAL JUDGE.

Educated in the Newark high school and trained in law at Washington, Frank A. Bolton ever since his admission to the bar has been a close student of municipal affairs and has been identified with many of the most important legal battles ever waged here.
Mr. Bolton is a candidate for municipal judge, a new office which takes the place of the justice of the peace and the mayor's court. This new court will have jurisdiction in important city affairs and should be administered by a man of forceful character and great legal ability.
Frank Bolton in the gas case made a great and a successful fight on behalf of the gas consumers of Newark. It took many months of effort and extended over a period of eight years. In this case alone Mr. Bolton demonstrated the stuff of which he is made. The municipal court will be safe in his hands.

FOR CITY AUDITOR.

The Republican organization through its newspaper gives as its only reason why Bert O. Horton should not be elected city auditor next Tuesday is the fact that Mr. Horton has served in office both as clerk of the courts and as a justice of the peace. In other words the paper thinks he has been in office long enough.
It is extremely bad taste for the paper to bring up this subject for it so happens that Mr. Horton's opponent has himself been holding a good public office for the same period as Mr. Horton. In fact he is now serving his third consecutive term as city treasurer and all this time he has been holding an important position in one of the banks of Newark.
The fact that Mr. Frye has been city treasurer for several years and the fact that he is now and has been for years prominently connected with a bank certainly is no reason why he should be defeated next Tuesday. By the same reasoning, the fact that Mr. Horton has been both clerk of courts and justice of the peace does not mean that he should not become city auditor. In fact Mr. Horton's experience as clerk and as justice qualifies him to act as city auditor. Mr. Horton has proved his efficiency.

EAST MAIN PAVING.

The scarcity of campaign material forces another Newark paper, desperate in its efforts to defeat Mayor Atherton, to refer often to the East Main street paving contracts. The matter has been passed upon by the court which found neither fraud nor conspiracy to defraud. The first contract was not executed because it was impossible during the war to obtain the materials necessary to do the work and the court has found that both of the contracts were illegal but there was nothing "crooked" about them. There is unfortunately delay in making the improvement in East Main street but there is nothing in the case to warrant the fuss that has been attempted.

MR. ASHCRAFT.

City Solicitor Henry C. Ashcraft is the target for much of the campaign ammunition exploded by another Newark paper but not one of the shots has taken effect. Mr. Ashcraft has been diligent and careful in his office and has always had the people's interest in mind. His popularity among the residents of Newark is great and is not in the least affected by the tirade that has been conducted against him.

CITY TREASURER.

Guy W. Lawyer is the Democratic candidate for city treasurer. He is at present district agent for the Midland Life Insurance company with offices in the Newark Trust building. Mr. Lawyer was born in Thornville. After graduation he taught school for six years and served as principal of the Mansburg, Ohio schools in 1910. He is a hustler, a successful business man and is thoroughly capable in every way.

VOTE FOR WILLIAMS.

The president of the city council is the vice-mayor. In the absence or incapacity of the mayor he becomes the chief executive of the city. Manifestly the man chosen for this office should possess poise, dignity, ability, good common sense. Every one of these qualities is possessed in abundant measure by R. L. Williams, the Hudson avenue druggist who is a candidate for his second term as presiding officer of the city council. Make no mistake. Vote for Williams.

It's always been the custom of another local paper to say at this stage of the game: "Look out for eleven hour roorbacks." One doesn't have to look to the Advocate for roorbacks. This isn't that kind of a paper.

A lot of people who never go to church would never buy any real estate in a community where there was no church.

MUNICIPAL COURT.

It would seem from his campaign advertising Fletcher S. Scott is claiming credit for the creation of the municipal court for Newark. It is known that Mr. Scott tried his level best to defeat it. The best he could do was to have the act amended so that he could become a candidate. The original act provided that a candidate should have five years experience in the practice of law and he had the time reduced from five years to three years to let him in, as he was admitted to the bar a little more than three years ago. When it comes to claiming things, Mr. Scott has no limitations. The municipal court act was prepared by a committee of the Licking County Bar Association, of which Mr. Scott was not a member, and the bill was introduced in the house of representatives by John S. Graham, Representative of Licking county, and was passed by the house in practically its original form, and the amendment referred to was made in the Ohio senate, where Mr. Scott was employed, at his instance. No less wildly extravagant are his claims in respect to his high regard and esteem for the workman. We are well satisfied that the laboring classes of Newark are deeply indebted to Mr. Scott, but that their indebtedness to him will be well discharged by the election of Frank A. Bolton.

324TH VETS TO HOLD REUNION IN SPRINGFIELD

Nearly Half of Battery Personnel Come From Licking County — Hebron Soldier is President.

The members of Battery D, 324th Heavy Field artillery will hold a reunion and celebrate Armistice Day on Nov. 11 at Springfield.

Before demobilization a Veterans' Association was organized of which Fred Y. Oldaker, of Hebron, is president, and James L. Griffin, of Springfield, is secretary and treasurer. The organization plans to renew old associations during the day and in the evening a banquet will be served. About two hundred men are expected to attend. About 50 per cent of the members of Battery D are from Licking county and a large delegation from this county is expected to attend the reunion.
Three of the former officers, Major Richard, Lieutenant Palmer, and Lieutenant Bevington will head the Akron delegation. Cleveland will be represented by Lieutenant Crego in charge. The organization also announces that all former members of the 324th F. A. will be interested to learn that the article "Young America: The Letters of Mary Lee" in the October Atlantic Monthly was written by Miss Mary Lee, in charge of the Y. M. C. A. work with the 324th F. A. in Grosse Mached, Germany. The 32nd division and the 324th regiment is mentioned in the article.

COSTUME PARTY IS ENJOYED AT Y. M. C. A.

Over a hundred masked and costumed Halloweeners formed the grand march at the Junior party last night at the Y. M. C. A. Many very ingenious rigs were shown, and the prize for the best costume, a pumpkin pie, was awarded Wayne Garrison, who transformed himself into a Halloween "Jeff." Adolph Schiff was chairman of the committee which decided the funny costume and his job was a difficult one, at least a score warranting attention. Each participant received an apple by way of refreshment; a peanut scramble wound up the festivities. Games were not only enjoyed by those on the floor, but by 75 children and adults in the balcony of the gymnasium. Newark school teachers distributed their invitations this week.

MOVING TO THE EAST

To the Editor:
No doubt your subscribers are wondering what has become of me and the last time I was in your city the genial editor of this paper whom this letter is addressed made the remark that it was to bad that a man like I whose friends was legions (according to the editor) did not keep in touch with their old friends in the different cities and correspond with their friends in all the different cities. So I says maybe some people has enough spare time to write to all their friends but personally time means money to a man like myself and if I was to even take time to drop a card once in a while to all my old pals why they would not be time for me to do nothing else, wile the wife and kiddies went out in the forest and gathered Herbs and wild hurberrys for the evening meal.

The editor laughed heartily at the way I put it, but after he had recovered made the remark that this paper reached all my old friends as well as people that takes a interest in a man like I and feel like they know me though we have never met and if I cared to keep my old friends posted on my movements and etc. why we would feel highly honored would I write in a letter once in a while that he could publish it in this paper containing news of my family and I as well as items of interest occurring in the big world which I have the privilege of coming in contact with them more so than you dear people of this old town beautiful though it is.

I have excepted the kindly editor's benial offer and wile I do not claim merits as a literary man the editor says that does not matter and if I will just write in my own breezy style (the way I talk as he expressed it) he and his readers will be more than satisfied. I will do my best which as I often say is as much as any man can do and I will half to crave your indulgents if I crowd or 2 up to date slang drops into these cols once in a while as I am only trying to be natural which is where a man is at his best after all.

Many of my friends all ready knows that I am going to move east from dear old Chi where I been located on and off for the past 10 yrs. but perhaps a few of you is curious as to how I come to make this decision. Well they says I have a show name Chi Chin Chow that come to Chi last winter and the hird that owned it was name Mr. Gest and I nigh ave become acquainted and he asked me why didn't I write him a play. So I says I haven't never wrote I and don't know if I can or no, and wile I was making the experiment the wife and kiddies would half to live on memories so when he got through laughing at the quaint way I put it he says yes but suppose I was to give you enough fact to keep them in fruit and cereal wile you are writting the play so I says O. K. and he set down and wrote out a check and come to find out it was good.

Well I told about it at home and I says we must not leave this wild bird get out of our clutches but we have got to move somewhere within touching distant of him so he says what do we half to move for, as when this jack is all spent you can do down to his hotel and tell him you will write him 2 plays in the stead of 1. So I says just be cause his name is Gest that is no stich he always stays in a hotel and she laughed out loud.

Well I found out that he makes his home in N. Y. so I says we would move down there, but she said she wouldn't live there as she had heard they couldn't nobody sleep acct. of the Brooklyn base-hall fans across the river so I said we would find a quite place somewhere close or I asked a friend of mine from N. Y. where he would recommend us to and he said Greenwich, Conn. So I asked him where was that and he says on Long Island Sound. So I says how could that be a quite place and he so near the sound, but he said he had heard that one before or read it in a book.

Well the next thing was getting rid of our lease in Chi and they wasn't no trouble about as people is so hard up

Don't blast your Liver and Bowels, but take "Cascarets."

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are full, nervous and upset, bothered with a sick, gassy, disordered stomach and colds.

Are you keeping your liver and bowels clean with Cascarets, or shocking your insides every few days with Colic, Salts, Oil and violent pills?

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels. Cascarets never gripe, sicken or cause inconvenience and Cascarets cost so little too.—Adv.

THE COURTS

Common Pleas Notes.

In the case of Robert Woodward, plaintiff in error, vs. the State of Ohio, defendant in error, the court of common pleas has rendered a decision, reversing the decision of the lower court and finding that the judgment was manifestly against the weight of the evidence and contrary to law. The court remanded the case to the lower court for a new trial. The prosecution was brought charging Woodward with a violation of the general code in the operation of a motor vehicle. He was found guilty by the lower court, and is now granted a retrial.

The court heard the arguments of counsel in the case of Swift & Co. vs. E. T. Rugg & Co., the suit growing out of a shipment of leather for making halters. The court took the case under advisement.

The court heard the arguments upon a motion for a new trial in the case of Ollie Alberty, administrator, vs. William Gilmore. The jurors returned a verdict for Gilmore, and plaintiff now asks for a retrial. Plaintiff claims in the charge of the court to the jury as to the law of the case. Mrs. Alberty brought the suit for damages growing out of the death of her husband who was killed by being kicked by a horse owned by defendant, Gilmore.

The court will announce a decision upon the motion for a new trial hereafter.

Judge Roscoe G. Hornbeck left for his home at London, today.

Faller Gets Decree.

Milady's Boudoir

Beauty and Health.

One of the most important rules to attain beauty is to sleep sufficiently. Eight hours are not too much for any woman. People who are nervous people should have ten hours. Let them take it regularly, conscientiously and always in a well ventilated room. Presently they will be astonished to see how their cheeks begin to fill out and glow, how their eyes sparkle, how fresh and elastic and altogether like a new being they feel and how the mountains of depression and languor, discontent and trouble which has weighed them down before, seem somehow to have rolled out of sight and almost out of remembrance.

Pure air is as essential to sleep as to health. The air should be freely admitted to our sleeping room and the sunlight also. Few people realize what a healthful and even medicinal influence lies in the rays of the sun. No one should sleep in a room that is not well ventilated. This does not mean that you should sleep in a draft. This is not to be thought of. To avoid this, and at the same time secure a free ventilation, it is better, in ventilating a room for the night, to leave several small openings rather than a large one.

But it is not enough to admit the air to our dwellings. We must go out into it, exercise in it. Such exercise as horseback exercise is excellent for those who can afford it. It is claimed that it calls into action all of the muscles, while guiding and managing the horse occupies the mind and keeps the way from seeming tedious.

Unfortunately all cannot have a horse, but all, not absolutely ill, can walk a little each day, and should do so, even if at the first trial it be but a short way. One should not go on a long walk immediately after eating. Wait a half an hour at least.

Fall Complexion Problems.

It is most difficult to keep the skin in fine condition through the fall and winter months than in the summer. In summer there is perspiration. It takes some care of the complexion. It keeps the pores open and the skin free.

from impurities. It bleaches the skin and makes it tender and fresher.

The face, in the cold months, should be washed thoroughly with a clean wash cloth or with the palms of the hands, every night and morning. At night use warm water in which pinch of borax has been dropped and in the morning use very cold water, as cold as can be borne. Once or twice a week, preferably twice, the face should be treated to a regular scrub bath, a massage, and an application of cold cream.

First tie a ribbon snugly about the head to hold the hair back from the face. Draw a basin of warm, almost hot, water and drop in a heaping teaspoon of borax. Lean over the steaming water a minute or two, manipulating the flesh over the steam. Then with a soft face brush and pure glycerine soap, scrub the face thoroughly, cheek, brows, chin, nose and the skin all around the ears which has a way of becoming grimy if not carefully attended to.

When the face is beautifully clean and glowing, massage it patiently for ten minutes with a good face cream, using two fingers in a light, firm, persistent stroke, always tending upward. Here is an excellent recipe for skin food. An ounce each of coconut oil and lanolin and two ounces of oil of sweet almonds. Melt all together in a porcelain saucer. Remove from the stove and beat in an ounce of orange flower water and three drops of tincture of benzoin. Continue the beating until the mixture is soft and fine of texture and about the consistency of rich cream. Then set in a cool place in covered jars.

After the massage, bathe the face again in warm water, then rinse in cold water, then again in cold water. Finally go over every bit of the face with a lump of ice, holding the ice partly covered by a towel.

Our Boys and Girls

One of the firm beliefs that a mother should impress upon her children is not to let their anger last the day out. From babyhood the little ones should be taught to settle each day's accounts before their bedtime, that they may sink quietly into refreshing sleep.

So fixed is this teaching become in their childish minds that they will find it extremely easy to forgive the playmates who have wronged them. In cases where other children impose upon them, they should be urged to let them alone, and in any case, to have the slate wiped clean of the petty cares of the child world every night.

By all means teach the children that it is just and noble and kind to forgive. They may be imposed upon occasionally by other children, but that is as nothing compared to a clear conscience and a clean feeling mind. There is real joy in forgiving.

Everyday Etiquette

"What style of mourning is proper to wear for a husband?" asked Miriam.

"The world's ideas about mourning have changed a great deal in the last few years and if the widow is young all white crepe is worn by many. If you do care for this a simple black veil with a white faced hat is quite proper. It is a matter of choice," answered her aunt.

CITY COUNCIL.

P. W. Faust, American express agent, is a candidate for his second term as councilman-at-large. In the council and as a citizen Mr. Faust has worked to make Newark grow and prosper. He has a record of 28 years continuous service in the express business and in his own business as well as in the city's business he has been faithful and successful.

O. George Hand, another candidate for councilman at large, is running for the first time. He is a popular Wehrle foundry man and his friends are legion. He has given assurance that the city's interest will be his chief aim and his friends know that dependance can be placed in every promise he makes.

Walter D. Welker of West Main street, and a resident of Newark for 15 years is a candidate for councilman at large. Mr. Welker is 44 years of age and a well known groceryman. He has never before been a candidate for public office but has served as judge and clerk of elections in recent years. Mr. Welker is thoroughly dependable.

Fred Wolverton, J. Phil Baker, Carl Youtz, W. H. Butler and Charles Spees are the Democratic ward candidates for membership in the city council. These men are all well known to the voters of their respective wards. They are men in whom confidence may be placed and they desire support next Tuesday.

VOTE FOR ATHERTON.

H. A. Atherton is the most progressive, the most energetic mayor Newark has had for years. He has not catered to any element but has kept in mind the city's interests.

His office record is an open book. The opposition's effort to discredit his collection of fines is met with the mayor's invitation to all who may be interested to call at his office to inspect the cash receipts for money which he turned over to the proper authorities.

A vote for "Gus" Atherton next Tuesday is an expression of approval of the progressive business like administration he has given during his first term. Vote for Atherton.

Not one of the men who are trying their level best to defeat "Gus" Atherton has as yet called at the mayor's office to see the cash receipts which he holds showing that the money collected from fines was properly accounted for and turned over to the proper authorities. The mayor has these receipts to substantiate the statement which was recently published. If you doubt it visit the mayor's office before you vote next Tuesday.

MUNICIPAL JUDGE.

Educated in the Newark high school and trained in law at Washington, Frank A. Bolton ever since his admission to the bar has been a close student of municipal affairs and has been identified with many of the most important legal battles ever waged here.

Mr. Bolton is a candidate for municipal judge, a new office which takes the place of the justice of the peace and the mayor's court. This new court will have jurisdiction in important city affairs and should be administered by a man of forceful character and great legal ability.

Frank Bolton in the gas case made a great and a successful fight on behalf of the gas consumers of Newark. It took many months of effort and extended over a period of eight years. In this case alone Mr. Bolton demonstrated the stuff of which he is made. The municipal court will be safe in his hands.

FOR CITY AUDITOR.

The Republican organization through its newspaper gives as its only reason why Bert O. Horton should not be elected city auditor next Tuesday is the fact that Mr. Horton has served in office both as clerk of the courts and as a justice of the peace. In other words the paper thinks he has been in office long enough.

It is extremely bad taste for the paper to bring up this subject for it so happens that Mr. Horton's opponent has himself been holding a good public office for the same period as Mr. Horton. In fact he is now serving his third consecutive term as city treasurer and all this time he has been holding an important position in one of the banks of Newark.

The fact that Mr. Frye has been city treasurer for several years and the fact that he is now and has been for years prominently connected with a bank certainly is no reason why he should be defeated next Tuesday. By the same reasoning, the fact that Mr. Horton has been both clerk of courts and justice of the peace does not mean that he should not become city auditor. In fact Mr. Horton's experience as clerk and as justice qualifies him to act as city auditor. Mr. Horton has proved his efficiency.

EAST MAIN PAVING.

The scarcity of campaign material forces another Newark paper, desperate in its efforts to defeat Mayor Atherton, to refer often to the East Main street paving contracts. The matter has been passed upon by the court which found neither fraud nor conspiracy to defraud. The first contract was not executed because it was impossible during the war to obtain the materials necessary to do the work and the court has found that both of the contracts were illegal but there was nothing "crooked" about them. There is unfortunately delay in making the improvement in East Main street but there is nothing in the case to warrant the fuss that has been attempted.

MR. ASHCRAFT.

City Solicitor Henry C. Ashcraft is the target for much of the campaign ammunition exploded by another Newark paper but not one of the shots has taken effect. Mr. Ashcraft has been diligent and careful in his office and has always had the people's interest in mind. His popularity among the residents of Newark is great and is not in the least effected by the trade that has been conducted against him.

CITY TREASURER.

Guy W. Lawyer is the Democratic candidate for city treasurer. He is at present district agent for the Midland Life Insurance company with offices in the Newark Trust building. Mr. Lawyer was born in Thornville. After graduation he taught school for six years and served as principal of the Miamiburg, Ohio schools in 1910. He is a hustler, a successful business man and is thoroughly capable in every way.

VOTE FOR WILLIAMS.

The president of the city council is the vice mayor. In the absence or incapacity of the mayor he becomes the chief executive of the city. Manifestly the man chosen for this office should possess poise, dignity, ability, good common sense. Every one of these qualities is possessed in abundant measure by R. L. Williams, the Hudson avenue druggist who is a candidate for his second term as presiding officer of the city council. Make no mistake. Vote for Williams.

It's always been the custom of another local paper to say at this stage of the game: "Look out for eleven hour roorbacks." One doesn't have to look to the Advocate for roorbacks. This isn't that kind of a paper.

A lot of people who never go to church would never buy any real estate in a community where there was no church.

Order is a lovely nymph, the child of beauty and wisdom; her attendants are comfort, neatness and activity; her abode is the valley of happiness; she is always to be found when sought for, and never appears so lovely as when contrasted with her opponent—disorder.—Johnson.

MUNICIPAL COURT.

It would seem from his campaign advertising Fletcher S. Scott is claiming credit for the creation of the municipal court for Newark. It is known that Mr. Scott tried his level best to defeat it. The best he could do was to have the act amended so that he could become a candidate. The original act provided that a candidate should have five years experience in the practice of law and he had the time reduced from five years to three years to let him in, as he was admitted to the bar a little more than three years ago. When it comes to claiming things, Mr. Scott has no limitations. The municipal court act was prepared by a committee of the Licking County Bar Association, of which Mr. Scott was not a member, and the bill was introduced in the house of representatives by John S. Graham, Representative of Licking county, and was passed by the house in practically its original form, and the amendment referred to was made in the Ohio senate, where Mr. Scott was employed, at his instance. No less wildly extravagant are his claims in respect to his high regard and esteem for the workman. We are well satisfied that the laboring classes of Newark are deeply indebted to Mr. Scott, but that their indebtedness to him will be well discharged by the election of Frank A. Bolton.

324TH VETS TO HOLD REUNION IN SPRINGFIELD

Nearly Half of Battery Personnel Come From Licking County—Hebron Soldier is President.

The members of Battery D, 324th Heavy Field artillery will hold a reunion and celebrate Armistice Day on Nov. 11 at Springfield.

Before demobilizing a Veterans' Association was organized of which Fred V. Oldaker, of Hebron, is president, and James L. Griffin, of Springfield, is secretary and treasurer. The organization plans to renew old associations during the day and in the evening a banquet will be served. About two hundred men are expected to attend. About 50 per cent of the members of Battery D are from Licking county and a large delegation from this county is expected to attend the reunion.

Three of the former officers, Major Richard, Lieutenant Palmer, and Lieutenant Bevington will head the Akron delegation. Cleveland will be represented with Lieutenant Greco in charge. The organization also announces that all former members of the 324th F. A. will be interested to learn that the article "Young America: The Letters of Mary Lee" in the October Atlantic Monthly was written by Miss Mary Lee, in charge of the Y. M. C. A. work with the 324th F. A. in Gross Mached, Germany. The 32nd division and the 324th regiment is mentioned in the article.

COSTUME PARTY IS ENJOYED AT Y. M. C. A.

Over a hundred masked and costumed Hallowe'eners formed the grand march at the junior party last night at the Y. M. C. A. Many very ingenious rigs were shown, and the prize for the funniest costume, a pumpkin pie, was awarded Wayne Garrison, who transformed himself into a Hallowe'en "Jeff." Adolph Schiff was chairman of the committee which decided the funniest costume and his job was a difficult one, at least a score warranting attention. Each participant received an apple by way of refreshment; a peanut scramble wound up the festivities. Games were not only enjoyed by those on the floor, but by 75 children and adults in the balcony of the gymnasium. Newark school teachers distributed their invitations this week.

Viewing the mess from this distance a persistent doubt is felt as to whether Petrograd is worth the trouble.—Indianaapolis News.

And has a quite loud ring, from having been the Manor of the Hyde belonging to the Abbey of Westminster. It became the property of the crown on the dissolution of the monasteries in the reign of Henry VIII. It is now Hyde Park that the International Exhibition of 1881 was held, in a Crystal Palace specially erected for the occasion. It is not clear as to what time the public began to have free admission to Hyde Park, but Ben Jonson speaks of the show of coaches which it presented in his time, and it is known that it was constantly resorted to on the morning of May-day for the sports connected with the celebration of that day.

There will be initiated more than 100 in the rank of page and the work will be given in dramatic form by the page rank team of Newark lodge.

MOVING TO THE EAST

RING W. LARDNER

To the Editor:
 No doubt your subscribers are wondering what has become of me and the last time I was in your city the genial editor of this paper whom this letter is addressed made the remark that it was to bad that a man like I whose friends was legions (according to the editor) did not keep in touch with their old friends in the different cities and correspond with their friends in all the different cities. So I says maybe some people has enough spare time to write to all their friends but personally time means money to a man like myself and if I was to even take time to drop a card once in a while to all my old pals why they would not be time for me to do nothing else, while the wife and kiddies went out in the forest and gathered Herbs and wild hurbieberries for the evening meal.

The editor laughed heartily at the way I put it, but after he had recovered made the remark that this paper reached all my old friends as well as people that takes a interest in a man like I and feel like they know me though we have never met and if I cared to keep my old friends posted on my movements and etc. why we would feel highly honored would I write in a letter once in a while that he could publish it in this paper containing news of my family and I as well as items of interest occurring in the big world which I have the privilege of coming in contact with them more so than you dear people of this old town beautiful though it is.

I have excepted the kindly editor's banial offer and while I do not claim merits as a literary man the editor says that does not matter and it will just write in my own breezy style (the way I talk as he expressed it) and he and his readers will be more than satisfied. I will do my best which as I often say is as much as any man can do and I will half to crave your indulgents if a word or 2 of up to date slang drops into these cols once in a while as I am only trying to be natural which is where a man is at his best after all.

Many of my friends all ready knows that I am going to move east from dear old Chi where I been located on and off for the past 10 yrs. but perhaps a few of you is curious as to how I come to make this decision. Well they was a show name Chr. Chin Chow that came to Chi last winter and the bird that owned it was name Mr. Gest and I night we become acquainted and he asked me why didn't I write him a play. So I says I haven't never wrote I and don't know if I can or no, and while I was making the experiment the wife and kiddies would half to live on memoris so when he got through laughing at the quaint way I put it he says yes but suppose I was to give you enough jack to keep them in fruit and cereal while you are writing the play so I says O. K. and he set down and wrote out a check and come to find out it was good.

Well I told about it at home and I says we must not leave this wild bird get out of our clutches but we have got to move somewhere within touching distant of him so he says what do we half to move for, as when this jack is all spent you can do down to his hotel and tell him you will write him 2 plays in the stead of 1. So I says just be cause his name is Gest that is no sign he always stays in a hotel and she laughed out loud.

Well I found out that he makes his home in N. Y. so I says we would move down there, but she said she wouldn't live there as she had heard they couldn't nobody sleep acct. of the Brooklyn baseball fans across the river so I said we would find a quite place somewhere close so I asked a friend of mine from N. Y. where he would recommend us to and he said Greenwich, Conn. So I asked him where was that and he says on Long Island Sound. So I says how could that be a quite place and be so near the sound, but he said he had heard that one before or read it in a book.

Well the next thing was getting rid of our lease in Chi and they wasn't no trouble about as people is so hard up

for homes that some of them has even sold their gold fish and moved into the bowl, but when we went to Greenwich to get a hold of a place to live we found they wasn't nothing at leisure till the middle of fall. So there we was without no root to cover our head

Uniformity

Uniformity is the secret of success of any good product.

It's the reason Willard Batteries with Threaded Rubber Insulation are making such a wonderful record of long life without repairs.

Ordinary materials used for insulation between battery plates are taken just as they come from nature and can't be made uniform by any process.

But Threaded Rubber Insulation is built up by a scientific manufacture. Every piece of it is like every other and almost invariably Threaded Rubber lasts as long as battery plates.

No wonder many of these batteries have given three and four years of uninterrupted good service.

Ohio Will Not Vote Booze Back

In the same month in 1918 that the Hun laid down and quit, the people of Ohio voted out the reign of Old King Booze.

Old Booze had ruled this state for years and his reign reveals a ghastly, terrifying record.

He had no heart.

He had no conscience.

He was a thing. Remorseless as the Pates. Plundering, Trampling, Destroying, men, women and children. He exacted a tribute of \$3,000,000 a month—from the people of Ohio and gave in return a product that left a trail of want, waste, and woe. The people who made this product, who took this \$3,000,000 from the people of Ohio and gave for it something worse than nothing—want King Booze to reign again.

Will the people of Ohio crown King Booze again and give him \$3,000,000 a month tribute?

They will not.

HOW TO VOTE DRY

There are TWO separate ballots on the wet and dry question with TWO propositions on each ballot.
On the short ballot, vote "no" on Article XV, Section 9-1.
Vote "no" also on Article XV, Section 9.
On the long ballot, vote "yes" on Senate Joint Resolution No. 4 (retroactive National Prohibition).
Vote "yes" also on Crabbe Act, House Bill No. 24, (Providing for law enforcement).

COSSACK TAKES PART IN BATTLES

Bowser's Opponent Thursday Night Was In Battle of Lemberg and Przemyśl During Great War.

Wrestling fans are greatly interested in the first match of the season next Thursday night at the Auditorium theater when Paul Bowser meets the Cossack demon, Ivan Michaloff, druggist and former army officer in Russia.

Michaloff, a Siberian by birth, served in Russia as a colonel under Kerensky. When the war broke out in 1914, he was in South America. He left that country at once for Russia and joined the Cossack troops of which he was a member during the Japanese-Russian war.

Michaloff claims to have participated in the battle of Lemberg and says he was in the thick of the fight when the Russians made their advance on the German army at Przemyśl.

Since coming to America the Siberian has met and wrestled many of the famous mat artists including Zbysko, the Pole, the former staying with him for one hour and forty minutes, when the superior knowledge of Zbysko caused Michaloff's defeat. Later he was matched with Stecker and stayed 45 minutes with him, which was twice as long as either Zbysko or Cutler was able to stay with the big Iowan.

Michaloff made his best showing against John Olan, the Finnish champion, whose gruelling attack methods caused the defeat of Stecker, standing shoulder to shoulder with him for two hours and forty-five minutes when the contest was declared a draw. Michaloff beat Roland Herach in 87 minutes and was also returned the winner when he met Roller Densetral. Charlie Cutler, according to newspaper clippings, considers Ivan the best man sent to the United States in years. He weighs 225 pounds, is 6 feet, 3 inches tall and is 31 years old. He has a chest of 49 1/2 inches, a waist measure of 38, neck 18 1/2, reach 75, biceps 17 1/2, forearm 16, thigh 30 1/2 and calf 18 1/2.

Michaloff is a partner in a drug business with his brother in Chicago, and though he holds a drug license in Russia his travels in the United States prevent him from taking out a license to compound prescriptions in this country.

HAS LESS THAN \$1500 FOR MEMORIAL FUND

The Roosevelt memorial fund yesterday amounted to but \$1300, Treasurer W. T. Suter announced. This did not include the school report, amounting to \$179, nor the report of two teams still working.

A large number of voluntary subscriptions are needed to bring the fund to the amount asked from this county, \$2900.

Chairman E. C. Wright announced that the fund was still open and that subscriptions could be sent to Treasurer Suter by using the blanks printed in another part of the Advocate or by handing the checks to any of the team workers.

RECEIVER NAMED FOR DAYTON CAR BUILDERS

Dayton, Nov. 1.—Falling demand for new freight and passenger cars, the chief industry of the company, is assigned for one of the causes for the receivership suit filed yesterday against the Barney and Smith Car company, by Ballman and Irwin, stockholders, of Cincinnati. Valentine Winters, Dayton banker was appointed receiver under \$25,000 bond.

The company is capitalized at \$2,500,000 preferred and \$2,000,000 common stock. The business is to be continued, the company expected to join in the rehabilitation of the railroads. Assets are in excess of liabilities of the company, the petition states, but disruption of the organization is hoped to be avoided through receivership suit.

Telephone Service

Concerning the City Solicitor's Letter To Voters

We have divided Mr. Ashcraft's eleventh-hour appeal to the voters of Newark up into its various statements so that we may answer each definitely.

1. "The Newark Telephone Company has continuously been publishing certain statements in the newspapers concerning me for doing, as I think, my official duty."

2. "My official duty is to protect 'in the courts the vested rights of the subscribers of telephone service in the city of Newark.'"

3. "A contract was entered into in 1910, between the City of Newark and The Newark Telephone Company for certain fixed charges for telephone service for a period of 21 years."

4. "The Telephone Company is now attempting to repudiate this contract."

5. "The real purpose (of said illegal repudiation) is to raise the prices charged for their telephone service."

6. "If the company is successful either in having the contract cancelled or the lawsuits now pending dropped, the city of Newark will forever lose jurisdiction in the FIXING of prices to be charged for service."

7. "The reason is that the law then places the power of fixing rates for telephone service in the hands of The Public Utilities Commission."

8. "You will be interested enough to explain the above facts to your friends."

9. "The Telephone Company through some of its employees is now very active in an effort to defeat me."

10. "A contract is an obligation that should bind equally both parties."

In the foregoing ten paragraphs will be found every essential claim made by Mr. Ashcraft in his eleventh-hour appeal for votes at our expense. Exact quotations for the most part make up these paragraphs.

OUR ANSWER

1. We have made some statements about Mr. Ashcraft and they were made with directness and not by innuendo. We have charged and charge again that Mr. Ashcraft originated the campaign of court action against this company, although he did attempt to "pass the buck" to the city council. What he has done and proposes to do is done under the cloak of "official duty", and not because he was ordered so to do by the city council. Evidently he thought "baiting the corporations" by public officials was still fashionable and would get him votes for re-election. He is now attempting to cash in on that notion.

2. Mr. Ashcraft is more interested in "vested rights" than he is in a square deal. In 1776 Mr. Ashcraft would have been a Tory because they stood for "vested rights." In 1861 he would have been a southern bourbon because they stood for the "vested rights" in the south. In Russia he would have been for the Czar because the Czar was for "vested rights." He can probably truthfully say that he would not have been a Tory or a southern bourbon or an upholder of the Czar, and yet he stands in Newark, Ohio, in the fall of 1919 and poses as a Democrat prating of "vested rights" as against the square deal. For Mr. Ashcraft's information and education we would say that all "vested rights" that are based on the square deal will stand without any help from him and all other "vested rights" may turn out to be "vested wrongs" and will go by the board.

3. No contract was entered into in 1910 by the City of Newark and this Company providing for certain fixed telephone rates. The reason why is because the City of Newark has no power to make such a contract. Mr. Ashcraft, to be solicitor, ought to be good enough of a lawyer to know this. If he doesn't know this he is not enough of a lawyer to be solicitor of Newark.

4. We can not "repudiate" a contract that does not exist. We have made no attempt to repudiate anything. We have tried to obtain enough money so that we may continue to give good telephone service, to pay good wages, and to exist. But in doing that we have repudiated no legal obligations and do not propose to try.

5. This statement is simply untrue. We have already announced that we do not propose to raise prices. We couldn't do it, anyhow, unless The Public Utilities Commission allowed us to do so.

6. The City of Newark cannot forever lose the right to fix telephone prices because it never possessed that right.

7. The law never placed the right to fix telephone rates in the jurisdiction of any authority except that of the Public Utilities Commission, so that Mr. Ashcraft's statement otherwise is untrue.

8. Mr. Ashcraft says several things are "facts" none of which is a fact, and asks his friends to explain said "facts" to others. Conducting a law suit in this fashion is called "shysterism;" in politics it is looked upon as "smart;" in either event it is reprehensible.

9. No employe of the telephone company has been ordered or asked to oppose Mr. Ashcraft. The company is not and has not been "active" to defeat him. Mr. Ashcraft himself is the first to lug into the campaign the telephone rate controversy. He probably thought it was "good politics" to do so. What our employes are doing with their votes is their own affair and so far as we have observed them they are quite capable of casting their votes without our help and without Mr. Ashcraft's help, too.

10. This paragraph is evidently thrown in for a proper and impressive finale. It is the only statement in the letter that is wholly true, but unfortunately it hasn't anything to do with Mr. Ashcraft's re-election.

In conclusion we would only add that we have presented the side of the company in the rate controversy frankly and dispassionately. We have held back nothing. We began last June when no election was at hand. We have told more about our business than has ever been told the public about any business in Newark. Mr. Ashcraft studiously avoided any reply to our statements until a few days before election. We have met every statement he has made. Most of this reply has been printed in our advertising during the past summer. Mr. Ashcraft is guilty of stating half truths, and untruths, and he has waited until we have scarcely time for reply.

Governor Harmon Says Classification Necessary To Save the Smith Act

Classification must be adopted or the Smith Limitation Act is imperiled, says former Governor Judson Harmon in an open letter to J. W. Garrett, Secretary the Franklin County Farmers' Union. The letter is dated October 25, 1919, and is herewith given in full. Governor Harmon says he has been "converted" to Classification "by the facts." The letter:

"Dear Mr. Garrett:

"Various causes have prevented an earlier reply to your letter of the 10th instant, requesting an opinion about the pending constitutional amendment authorizing classification of property for taxation.

"Being now only a private citizen, I am always reluctant to volunteer my views on public questions, but since you ask for them, on behalf of your Farmers' Union, I think it becomes my duty to comply.

"I was long doubtful about this change, but the experience of other states with it and of our own without it has led me to favor trying it, as at least a possible relief in the present distressing tax situation.

"Taxing property of all kinds, by a uniform rule, at its true value in money is admirable as a theory, but no way has ever been discovered to make it effective in practice. So land and other tangible property have borne the chief burden, while intangible property always has stood on the duplicate at a ridiculously low figure. The more drastic the attempts to reach the latter become the more promptly it goes to other states, whose laws are less severe or is the more ingeniously concealed.

"Every adjoining state but Indiana now has classified taxation, and by means of it has certainly succeeded in very largely increasing the revenues from intangible property, with the result that land and tangible property actually bear a much less proportion than formerly of the public expense.

"So to use a classic phrase, we have to deal with a condition, not a theory, and the condition is very bad. The one per cent law, which has proved such a safeguard to owners of farms and homes, is imperiled unless owners of invisible property help out the duplicate. And as attempts to force them have always failed, inducement should be tried. Experience proves that they are glad to forsake the ranks of shirkers when a low tax rate is offered to them, and such a rate applied to the vast amount of such property realizes much more than the full rate applied to such of it as death or accident discloses.

"Wrong as this may be in principle, it is a fact, none the less, and a most stubborn one. And for my part I favor giving the proposed change a trial. If it does not work satisfactorily it will be easy to discard it and go back to the old method.

"I believe a state income tax would not be an effective substitute, because the way is short and easy for intangible property to take refuge in other states. The Federal income tax does not have this drawback."

Labor Aids Move to Extend "Neighborhood Governments"

Leaders Endorse Plan to Set Up Community Councils to Improve Living Conditions.

The part which organized labor should play in community development is being studied by John Frey and a committee of well-known labor leaders in connection with proposed plans for an extension of the Social Unit plan of community organization, which has received its initial try-out in a section of Cincinnati, Ohio. Under the auspices of Mr. Frey's committee, John Walker, former president of the United Federation of Labor, has been making an intensive study of the Social Unit idea and will shortly submit recommendations to organized labor throughout the country.

Under the Social Unit plan neighborhoods are organized as units to study their own needs and form programs to meet them. The citizens of each community are organized by blocks, with elected block committees, and elected representatives to a central community council. Representatives elected by business, trade and professional groups assist the representatives of the blocks in planning programs to meet discovered needs. It is claimed for this scheme of organization that it does away with paternalism and brings government closer to people's lives.

In planning for a future based upon the initial demonstration of the Social Unit Organization is seeking the advice of labor, business, social workers, community workers, experts in municipal administration, public health, Americanization and public recreation.

JOHN P. FREY

Among the business men who are working with labor leaders in forming this community program is Charles Edison, son of the inventor and chairman of the board of directors of the Edison Company, who has resigned from all other social activities to affiliate with the Social Unit.

How American Women Break Down

Owing to the modern manner of living and the nervous haste of every woman to accomplish just so much each day, they overdo, and as a consequence develop ailments peculiar to their sex, as is indicated by backache, headache, nervousness, the blues, displacements and weakness.

Women who find themselves in this condition should slow down, and depend upon that good old fashioned root and herb remedy, Lydia E. Pinkham's Vegetable Compound, to restore them to health and strength, for there is no other remedy known that so quickly restores a healthy, normal condition.

Here is the Story of a Most Remarkable Recovery

Minneapolis, Minn.—"I was run down and nervous, could not rest at night, and was more tired in the morning than when I went to bed. I have two children, the youngest three months old, and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from me, so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."

ONE OF FATTY'S
BEST COMEDIES

To The THEATERGOERS of the City of Newark

Today we make the most interesting announcement we have ever made in the history of the Hartman Theater, Columbus.

We believe the information contained in the following statement will be read with intense interest by all who value the best and most artistic in the world of amusement.

We have always faithfully endeavored to bring to our patrons the biggest and best theatrical attractions of all times, for we know that only the biggest and the best appeal.

Now we are happy and proud to announce that we have contracted with F. Ray Comstock and Morris Gest, producers of the world-famous "Chu Chin Chow," whereby that brilliant and gorgeous spectacle of ancient Bagdad, the world's most beautiful production, will appear at the Hartman the week beginning Monday, Nov. 10th.

"Chu Chin Chow" is a gigantic and gorgeous musical extravaganza in ten scenes, with 18 musical numbers, produced on a scale of colossal grandeur, employing the services of 300 people. It was originally presented in London at His Majesty's Theater, nearly four years ago, by Oscar Asche, in association with the late Sir Herbert Tree, and is still playing there to capacity.

The American production of "Chu Chin Chow" was made by Messrs. Comstock and Gest, after the payment of the biggest royalty ever known in the theatrical world in New York more than two years ago, the scenery and costumes being imported from England and being exact duplicates of the originals.

"Chu Chin Chow" ran one entire season in New York at the Century Theater and then played an entire season in Boston, Philadelphia, Chicago and several other big cities.

This great production, once more presented in New York at the Century Theater in August, for a return engagement, and now embellished with many additional scenes and new costumes, comes here direct from its second engagement on Broadway.

Owing to the intense interest in the engagement, MAIL ORDERS for this important theatrical event will now be received. Send remittance with self-addressed stamped envelope for return of tickets, and as there will unquestionably be an avalanche of mail orders, please name choice of two performances to insure getting seats.

Prices—Evenings, \$1.00, \$2.00, \$2.50 and \$3.00; Matinee Wednesday, \$1.00, \$1.50, \$2.00; Matinee Saturday, \$1.00, \$1.50, \$2.00 and \$2.50.

We believe the engagement of "Chu Chin Chow" will be the most notable event ever known at this theater.

The first motion picture to be made by Douglas Fairbanks, as a member of the "Big Four"—United Artists Corporation to use its full name—has been secured for an early presentation by the Grand theater.

United Artists Corporation is made up of Mary Pickford, Charlie Chaplin, Douglas Fairbanks and D. W. Griffith. The United Artists feel that they will have greater freedom and consequently can do better work if they market their own pictures than if they permit their pictures to be marketed through an outside company.

The first picture to be put out by this new giant organization is "His Majesty, the American." The plans of the company are so full of promise of better things all around in the motion picture business, that theaters the country over have been most anxious to secure the first productions. The Grand theater will have the distinction of first exhibiting "His Majesty, the American" to the people of this city next Monday, Nov. 3 and continue until Thursday night inclusive.

Miss Patricia Collins, who gave general seasons in Georgia, the role of the "glad girl" in "Pollyanna," a part that she created, has a new play this season that has also been made from a successful novel, the story, "Tillie," by Mrs. Frank Hovey, one of the best sellers of its year, that has been adapted to the stage by Mrs. Helen H. Martin herself and Frank Hove, Jr., under the title of "Tillie." The play is being produced by the Georgia Players, being placed in the living room of a small village hotel, and the last in Tillie's home just outside of the village in the epilogue. "Tillie" in its comedy form, is the story of a Pennsylvanian girl who, coming into the daughter of a farmer who has em-

REGINALD WRIGHT KAUFMAN'S STARTLING BOOK

"THE HOUSE OF BONDAGE"

GREATEST WHITE SLAVE PICTURE SHOWN

Abbreviated Comments Regarding the Book

"It would kindle again the smoldering fires of civility toward women and snare a man into a sense of responsibility."—Rev. Alexander Irvine.

"I believe that the conditions with which the book deals must be generally known before they will improve, and that the publicity thus given them will be of great value."—John D. Rockefeller, Jr.

"A book that blinds the eyes and stirs the heart with the pity of it. With nobility of manner, with a passionate sincerity that touches the subject as by fire in a purity that burns away all impurity."—Edwin Markham.

"I feel that the story is a strong indictment against our boasted twentieth century civilization, and it is an excellent contribution to women suffrage campaign literature."—David Nathan, President of the Consumers League.

"Like a light in the night for away, but inspiring, the hope of an ultimate reformation, some final and equitable adjustment with God."—George Sylvester Viereck.

"The book itself and we are moved to recommend to the reading of every man and woman, boy and especially of every girl, in these United States."—Rowland Thomas.

"But it is not a sensation-seeking story and it is not a curiosity-pandering story; it is not written in the wheedling tones of the slum-conductor, but in the challenging voice of the Moral Surgeon."—J. B. Kerfoot.

"I wish that more people would read it, though the conditions it describes would doubtless be considered impossible in a civilized land by that great majority of people who do not know. It was painful to read because the author describes the conditions that are. One might be able to read it with less suffering if there was more doubt of its truth."—Lillian D. Wald, Head-worker of the Hull House, New York.

"That the shameful traffic which the author exposes does exist, there can be no shadow of doubt, and it constitutes a reproach to us all who live no hand to stay it."—Dr. Solomon Solis Cohen.

"You have done a great thing and I want to congratulate you. No one can read your book without seeing that something must be done something some way."—Elizabeth Goodnow, Author of "The Market of Souls."

"The novel is artistically, cleanly and beautifully written. Mr. Kaufman gave much pains and unusual talent to a noble purpose."—The Hartford Courant.

"To say the book is immoral because it takes a great crime against humanity for its theme is to say that the Ten Commandments are immoral—it can not be read and forgotten."—The Chicago Daily News.

"It shows sincerity of purpose and resorts to no clap-trap or sensationalism."—The Chicago Evening Post.

"It is safe to say that, this novel will be more effective than if it were a portentous sociological treatise: it carries on every page an impress of truth—a triumph of knowledge and artistic sense."—The Boston Evening Transcript.

"It is one of the strongest books on the particular phase of the social evil problem which it covers that I have ever read. It typifies the situation in England and America and I strongly recommend it to fathers and mothers and others interested in the subject."—Mr. Edwin W. Sims, United States District Attorney at Chicago.

"The sweet reasonableness of that up-to-date solution of life's difficulties, we are so constantly discussing just now; the book itself we are moved to recommend to the reading of every man and woman and boy, and especially of every girl in these United States. Such modest limit we set for the present to the carrying power of our issue."—Editor's Weekly.

"It is a terrible book. It should be read by thoughtful people. There is nothing in it to please the eye. It is profoundly moral, but awful, written with a sincere purpose to open the eyes of men and women to the horror of the situation. Mr. Kaufman believes that the present economic system is at the root of the evil and evidently looks to Socialism as the only remedy for the wage-problem, and, therefore, the only method of reaching the permanent reform."—The Congressionalist.

"Great horror at last! A terrible book, an epoch-making book! The ENCLE TOM'S CABIN OF WHITE SLAVERY!"

The Photo Drama Motion Picture Company have faithfully and within reason adhered closely to Mr. Kaufman's story, which has been pronounced the most inspiring film story of the year. NO OTHER STORY COULD HAVE DONE SO THOUGH THE PRODUCTION WOULD WIRING THE HEART OF STONE AND DRIVES A NAIL HOME.

ZANESVILLE BOYS SEEK TROPHY CUP

Boy Scouts From Muskingum County Must Go Some To Take Back Fenberg's Cup, Local Scouts Say.

All Boy Scouts of the city are now directing all their energies toward the winning of the Field Day in the afternoon of Nov. 11 at White field and claim has been made by practically every troop that they will carry home with them the beautiful cup that is being presented by George M. Fenberg. This event is one of the big events of the scout year. The events will be open to the public. The program will include demonstration of Scout training and Scout work. Word is received from Zanesville that the troops they are sending will come fully prepared to take this cup back to Zanesville with them. However in the words of the boys, "They will have to go some."

Troop No. 1.
Through the efforts of Dr. J. P. H. Stedem, chairman of the committee of Troop 1, the troop has secured the K. C. hall for its meetings. The last meeting was a preparation for the field meet. The boys were picked and assigned for the different competitions. Dr. Stedem gave the boys a talk concerning the field meet and also stated that he would help them and furnish the necessary materials. The doctor states that he has placed his utmost confidence in the troop, believing that the cup is now theirs.

Troop No. 2.
Troop No. 2 is meeting regularly on each Tuesday at the South End Fire House, No. 5. This troop has enrolled 18 boys who believe that they will come from behind and take the cup from the other troops.

Troop No. 8.
Up until the middle of October Troop No. 7 was known as the baby troop. However it now has a little brother. Troop No. 8 was registered within the last few days. This troop meets in the East Main street Methodist church, and is backed by the men of that church. C. F. Ketter is chairman of the troop committee and Clarence Robinson is scoutmaster of the troop. This troop registered with an enrollment of 17 boys. While the new arrival does not feel that it is old enough to do very strenuous work in the field day the boys will be on hand with a great amount of Scout spirit and state that others should look out for them in the next Field Meet.

Some Pertinent Facts

The Mayor in his statement and the Advocate in its comments have called attention to the Mayor's claim, that during the seven months from March 1st to October 1st, 1919, he had paid into the City Treasury some hundreds of dollars instead of the \$73.40, which we have repeatedly said was the total amount of fines paid in during those months.

Now during this time the total payments by him to the City Treasurer were, it is true, \$809.90, but what were they?

The following is a correct and complete statement, as shown by the records of the City offices of the payments of the Mayor to the City Treasury during these months:

1919	Vender's License	Theatre & Shows	Pawnbroker	Fines and Costs.	Total
March	\$125.00	\$ 6.00	\$131.00
April	155.00	\$31.40	186.40
May	30.00	50.00	\$50.00	6.60	136.60
June	25.00	25.00
July	125.00	125.00
August	5.00	50.00	55.00
September	112.50	35.40	147.90
	\$465.00	\$218.50	\$50.00	\$73.40	\$806.90

We have asserted and will continue to assert and the figures herewith show, that during these months the Mayor turned over to the City for fines \$73.40 only, although as he himself says there were about 400 arrests during that time.

We have maintained and still maintain that the attempt to give away \$26,000 in the East Main street matter and the giving away of over \$1,400 in the sewer matters, and the development in the Keeley Injunction cases, show the Board of Control to be unfit to handle the City's finances.

We have maintained and still maintain that the deficit of nearly \$19,000 in the Public Safety department, of \$1700 in the Public Health department, the \$38,000 increased costs of operating the Public Service department, during two years of the present administration, show its lack of business ability. And the claim that the deficit is due to the loss of liquor tax does not help, in view of the fact that \$10,000 was transferred from the general fund to cover this loss.

AMUSEMENTS

(Continued From Page 8)
 New York Princess theater pieces that unlike the majority of modern girls—and music shows, the lyric of the songs have cohesion and meaning, and of the attractive young girls who sing in the ensemble numbers that they can charm the ear as well as the eye. Both from the angles of composition and rendition the song "Phoebe Snow" for example, is entitled to a niche high in musical comedy art.

As in all their productions of this type Messrs Comstock and Elliott have given their cast and their ensemble with lavish hands. They are real fashion exhibits of the latest designs in Paris gowns. Seats are now selling.

The Moral of It.
 There is no denying the object lesson pointed out in "The House of Bondage" written by Reginald Wright Kauffman as a novel and which has but recently been pictured for the screen. It is a stern preaching against the white slave traffic as a vile habit and at present it flourishes in the United States. The author has written daringly and without much attempt at shielding any of the facts as they exist. Louis Parkford is seen in the principal role and is supported by a large cast of players who have been chosen because of their ability to depict the type of role in which they were cast. The House of Bondage opens at the Auditorium next Wednesday. No children will be admitted under 16 years of age.

ALHAMBRA
 Tom Moore proved himself to be an amateur burglar despite his "good" intentions of becoming a real one in his new Golden production "The City of Comrades." He gained admission to a mansion stole the jewels he coveted retreated to the kitchen, had a good feed and then—couldn't go on with the

came (Weakness number one). He crept upstairs, returned the jewels and overheard the daughter of the house say that the man she marries must be different from many she has yet seen. When she steps out of the room he goes to her writing desk and leaves a note for her. This is what he wrote: "There are men different from any you have seen hitherto. Wait" (Weakness number two). Before he has a chance to escape the girl returns, finds the note and the burglar has a little chat with him—and the poor burglar realizes that Cupid has played him a mean trick (Weakness number three). After committing this such unheard of breaches in burglar etiquette what chance has Tom? None. Fate is against him. So he yields to the inevitable and ends that it leads to the girl. "The City of Comrades" is seen to night last times at the Alhambra.

A Favor to a Friend.
 Manager Fenberg's Alhambra tomorrow will offer that clever Metro star Emmy Wehlen, together with this really good star, Jack Mulhall, Hugh Fox, Joseph Kilgour, Etta Conley, Jack Miller Jr, Harry Todd, Fred H. Warren and others who will be seen in "A Favor to a Friend." Miss Wehlen as Mary Worthington is shown to good advantage. The story:
 If Mary Worthington had not decided to visit New York from her home in the West to take possession of the estate left her by her father none of this would ever have happened. But she did and Mary Arnold the crafty executioner in order to hide from her his double dealings enlists the aid of his nephew Sam Arnold and an equally unscrupulous lawyer named Williams in circumventing his thesis. It is their plan to force Mary to sign an authorization which Mark Arnold has drawn up and in which he had inserted the loophole through which he may escape

HARRY CAREY

with the thousands he has already lost by mismanagement.
 "The Purple Pagoda" company has struggled along for a whole week on Broadway, and the producers are taking it off on Saturday night if Danny Abbott, the press agent who went to college cannot do out some thing to give it a new lease of life. So Danny conspires with a friend Robert Garrison to kidnap the star Gloria Morning as she arrives home from the theater Saturday evening.
 Brays Pictograph is an added feature

"Branding Broadway."
 Bob Sands, recently from Arizona—(Whetstone is the town—came to New York recently to take a job that is unique—the taming of a young high fiver—Larry Livingston, son of the well known railroad magnate. Larry had got into some sort of tangle over letters written to a pretty waitress, but Bob found she was all to the good and that the young waster hadn't a chance with her and so he promptly fell in love with her himself and was as

helpless as a tenderfoot when she looked at him.
 The whole story may be found at the Alhambra theater, where William S. Hart's latest Artcraft picture will be exhibited next Monday and Tuesday. It is called "Branding Broadway" and it is the newest idea in the films that has happened along in some time—also it is decidedly different from the Hart pictures we have seen in the past. Full of comedy, excitement and thrill but minus tears—it is real entertainment for the million.
 Danny Seena Owen is Mr Hart's leading woman, and others in the support are Arthur Shirley, Lewis W. Short and Andrew Robeson.

Gen.
 Pauline Frederick's new photoplay, "Her Final Reckoning" which will be shown at the Gem theater next Monday is in every respect a charming picture. Miss Frederick portrays two characters, one her mother and the other the daughter. She is a gypsy girl of the tiger woman sort of character and the sympathy of the dual roles is quite striking. The picture has been admirably produced and the support is far above the ordinary.

Lyric.
 The final showing of Hawke and Lewis Crackerjack company in "The Angel" will be given at the Lyric this evening. Sunday there will be shown a splendid feature movie and there will be a musical concert by the Hawke and Lewis company. All next week Hickie Brothers Columbia Revue company will be on the boards.

A LIBERAL OFFER BY LICKING CREAMERY COMPANY

To the Users of Milk and Cream From Its Retail Wagons.
 The Licking Creamery Company begs to announce that until further notice it will make a regular monthly award of two (2) \$1.00 sheets of milk tickets upon each of its retail milk wagons routes to private consumers of milk and cream throughout the city.
 The awards will be made on the 15th day of each month.
 A duplicate receipt stub from every sheet of tickets sold during the preceding month will be placed in a box from which the stubs to receive awards will be drawn by a disinterested party. Each route will be handled separately.

THERE IS BUT ONE CONDITION QUALIFYING THESE AWARDS.
 All competitors must have their accounts with the Licking Creamery Company paid in full for the month preceding the one in which any given drawing occurs.
 In other words, should a duplicate of one of your ticket receipt stubs be drawn on the 15th of one month it would not receive an award unless your account was paid in full for the month preceding.
 This is absolutely the only requirement made, thereby characterizing this proposition as being extremely clean cut and liberal.
 We hope it will please the public. Watch for the next drawing. Your name may be among the fortunate ones to be announced in the papers following the next drawing.

TORPEDOED!

Don't blast your liver and bowels, but take "Cascarets."

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach and colds.

Are you keeping your liver and bowels clean with Cascarets, or shocking your insides every few days with Colman's Mustard, or violent pills?

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels. Cascarets never gripe, sicken or cause inconvenience and Cascarets cost so little too.—Adv.

THE COURTS

Common Pleas Notes.

In the case of Robert Woodward, plaintiff in error, vs. the State of Ohio, defendant in error, the court of common pleas has rendered a decision, reversing the decision of the lower court, and finding that the judgment was manifestly against the weight of the evidence and contrary to law. The court remanded the case to the lower court for a new trial.

The court heard the arguments of counsel in the case of Swift & Co. vs. E. T. Rugg & Co., the suit growing out of a shipment of leather for making harnesses. The court took the case under advisement.

The court heard the arguments upon a motion for a new trial in the case of Ollie Alberly, administrator, vs. William Gilmore. The court returned a verdict for Gilmore, and plaintiff now asks for a re-trial, claiming error in the charge of the court to the jury as to the law of the case. Mrs. Alberly sought the suit for damages growing out of the death of her husband who was killed by being kicked by a horse owned by defendant, Gilmore.

The court will announce a decision upon the motion for a new trial hereafter.

Judge Roscoe G. Hornbeck left for his home at London, today.

Milady's Boudoir

Beauty and Health.

One of the most important rules to attain beauty is to sleep sufficiently. Eight hours are not too much for any woman. Thin, nervous people should have ten hours. Let them take it regularly, conscientiously and always in a well ventilated room. Presently they will be astonished to see how their cheeks begin to fill out and get rosy, how their eyes sparkle, how fresh and elastic and altogether like a new being they feel and how the mountains of depression and languor are swept down before, seem somehow to have rolled out of sight and almost out of remembrance.

Pure air is as essential to sleep as to health. The air should be freely admitted to our sleeping room and the sunlight also. Few people realize what a healthful, and even medicinal influence lies in the rays of the sun! No one should sleep in a room that is not well ventilated. This does not mean that you should sleep in a draft. This is not to be thought of. To avoid this, and at the same time secure a free ventilation, it is better, in ventilating a room for the night, to leave several small openings rather than a large one.

But it is not enough to admit the air to our dwellings. We must go out into it, exercise in it. Such exercise is one of the essentials to refreshing sleep. Horseback exercise is excellent, for it takes some care of the complexion. It keeps the pores open and the skin free.

Unfortunately all cannot have a horse, but all, not absolutely ill, can walk a little each day, and should do so, even if at the first trial it be but a short way. On should not go on a long walk immediately after eating. Wait a half an hour at least.

Fall Complexion Problems.

It is much more difficult to keep the skin in fine condition through the fall and winter months than in the summer. In summer the perspiration takes some care of the complexion. It keeps the pores open and the skin free.

Having us DRY CLEAN and REPAIR last year's overcoat and suit will keep you well dressed and save you money.

AIR PILOTS HOPE FOR FAIR WEATHER SUNDAY

The B. Ward Beam aviators, who are quartered at the Warden hotel, are experiencing quite a little bad luck by the continual rainy weather. Lieutenant Leann Case and Bob Barley, thrilling aerial artist on an airplane, have been ready to take the air every morning and fly down to the city and give an exhibition of wing walking in mid-air but cannot do so as long as the rain continues to fall.

Barley is getting nervous and states that if he cannot get up in the ship he will take a parachute jump from the Hull building. He isn't used to inactivity. He is sporting a handsome Tiffany mounted diamond, presented him by the great New York jeweler for his thrilling act in jumping from an extension board over the roof of the Wolverson building in New York into an aeroplane.

If the weather is propitious flights will be made tomorrow from the Church street aviation field and Barley will pull off some thrilling stunts flying over the city. An Advocate representative will go up with Lieutenant Case Sunday morning and drop an Advocate from the airplane and the person finding it will bring it to the Advocate office with receiving a year's subscription.

Beam announced today that his mechanic, R. M. Barr, had overhauled the ship and found it in first class condition. It is protected from the elements by a heavy tarpaulin and no parts are affected by the rain. Beam states that Aviator Case and Mechanician Barr make a fine team. Next week they will then tour through Alabama, Louisiana and Georgia, another ship joining them after they leave.

TAYLOR'S ARM WILL BE SAVED, KRIEG LEARNS

Lawrence Krieg returned this morning from Sandusky where he had been called on account of the accident to John R. Taylor, professional trap shooter of Newark. A load of shot entered his left arm by the accidental discharge of a gun as he was entering a skiff to take a duck hunt in the marshes of Sandusky Bay.

The gun was the property of C. A. Rogard, Taylor's hunting companion and had been placed on the seat of the skiff. As Taylor shoved off, the gun fell to the bottom of the boat and was discharged. The load of shot entered Taylor's left arm below the elbow. The bone in the arm was broken squarely in two places but had not been splintered in the least.

Krieg reported that the arm would be saved and that unless later complications developed it would not interfere with his shooting in the future. He will probably be confined to the hospital for the next two weeks before he can be brought home. Mrs. Taylor left yesterday and is at his bedside.

"Exide" Starting Battery

It is made to depend upon.

It is the same type of battery that provided under-
sea power for Uncle Sam's submarines in the war
with Germany; the same type of battery that the
United States Government has long used for its
army and navy; the same type of battery that is
used in the majority of farm electric-lighting plants.

It is the battery that is right, not in one promi-
nent detail, but in every detail.

In city, suburb and country the "Exide" Battery
has proved its right to first consideration—proved
it by its ability to consistently "live up to its job."

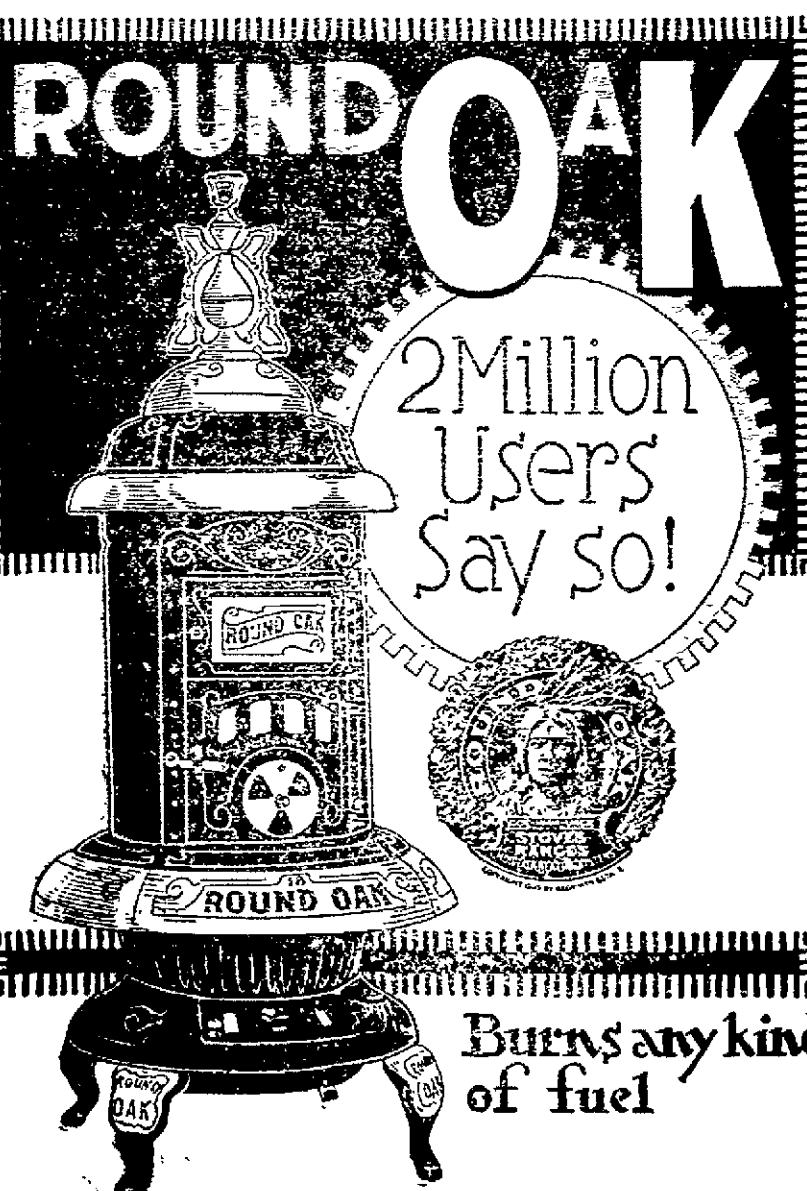

There is an "Exide" of proper size and type for
every automobile, truck and tractor now in use.

DENISON GAME IS OF CHIEF INTEREST

Granville's Big Red Squad
Confident That Miami
Will Fall Before Mass At-
tack.

Columbus, Nov. 1.—Denison, im-
bution this fall, and Miami, defeated a
week ago for the first time in three
seasons, furnished the premier football
attraction in Ohio today in their annual
brawl at Dayton. Denison was con-
fident that victory will be theirs.
With the return of Kilde to the
Denison line and with confidence in
its ability to gain yards by means of
the forward pass, the Red and Black
eleven has been drilled for an open
game to overcome the heavier, smush-
ing variety of football Coach Little's
eleven is expected to play. The Miami
team on the other hand was figuring
on making the Denison delegation the
victim of its return to form after drop-
ping last Saturday's battle in Oerlin,
which now is the favorite for the state
title. Playing on its own field, the
Oberlin machine was favored to win
over Western Reserve, which has so
far failed to play brilliant football.
Ohio Wesleyan, also performing in
its own back yard, was likely to win
from Ohio University. Case should win
easily from Huron, and Heidelberg
from Baldwin-Wallace.
Other Ohio conference games were:
Miami Union at Akron and Cincinnati at
Wilmington. Muskingum overcame Wil-
mington on the latter's field while
Bryan goes to Marietta to oppose the
Marietta eleven.

NEWARK PRAISED FOR TWILIGHT LG. RECORD

The conference of Y. M. C. A. in-
dustrial secretaries of Ohio was well
attended according to W. L. Gieseler,
who retained his night. This was the
second time that the conference was
held at Columbus and Gieseler hopes
that Newark may bid for the next ses-
sion, which will be held about Feb. 1.
Dr. John Staphen of the industrial
committee of the Y. M. C. A. was the
principal speaker.
Mr. Gieseler returned with a feather
in his hat when he mentioned the facts
at the conference concerning the Twi-
light League of this past sum-
mer. Pious (Gieseler) praised last on
having the most successful league in
the state directed by an industrial
secretary, but when the figures of the
Newark season were presented it was
found that Newark had justly proud of
the record made last summer and that
the Newark League had made the
honors with the industrial managers
who made this possible.

PATASKALA VETERANS CELEBRATE PEACE DAY

The Pataskala post of the American
Legion will celebrate Armistice day
with a "community feed" on the eve-
ning of November 11. Arrangements
are being made to hold some organ-
ization serve the banquet to the public
under the auspices of the Legion.
Efforts are being made to secure the
war pictures brought home by Colonel
Chalmers Wilson to be shown at the
Sterling theatre.

Women industrial workers in Michi-
gan are paid the same rate of pay as
men where they do the same work.

FOOTBALL PLAYER'S FUNERAL ON SUNDAY

The funeral of Raymond Kelsey,
Delaware football player, will be held
Sunday afternoon at 2:30 o'clock at the
William Street M. E. church in Dela-
ware. Officiating will be Rev. A. G.
Schatzman and Rev. Mr. Harbaugh,
pastor of Gardner chapel near West-
erville.

All pupils of the Delaware high
school will attend the services in a
group. The body will be taken to
Bremen where interment will be made.
The Delaware high school following
young Kelsey's death cancelled all foot-
ball games for the rest of the season,
although it had a good opportunity to
win the championship of the Central
Ohio High School Athletic league.
